

**100%  
OF THE MBA  
EXPERIENCE.  
HALF THE TIME.**

**FULL-TIME ACCELERATED MBA PROGRAM**

# TCU MBA

## YOU DO THE MATH.

It's 100% of the MBA experience, but 50% less time out of the workforce.

TCU's Full-time Accelerated MBA Program maximizes your career potential and minimizes your time out of the job market. It brings you the benefits of full-time study—along with the TCU MBA payoff of higher salaries, career advancement and a strong network of connections—in an abbreviated format that can be completed in just 12 months, or even less.

If you are looking to move ahead in a closely related career field, and you already have a strong academic and professional business background, TCU's Full-time Accelerated MBA Program could be the perfect equation.

### IS THIS PROGRAM THE RIGHT FIT FOR YOU? ::

#### ↳ **Are you looking for the complete full-time MBA experience?**

By immersing yourself in learning, away from the distractions and demands of your daily job, you can take full advantage of TCU's signature stand-and-deliver experiences. You can consult for Fortune 500 companies like Nike and Lockheed Martin, analyze supply chain issues at manufacturing centers in China, brainstorm marketing strategy alongside Frito-Lay execs, or meet with Wall Street hiring managers during the finance club's New York trip.

↳ **Do you have a strong academic and professional background in business?**

Because of its abbreviated format, the Full-time Accelerated MBA requires an undergraduate degree in business (BBA) and at least three years of professional business or military experience.

↳ **Do you plan to advance your career in a similar career field?**

The Full-time Accelerated MBA capitalizes on your existing experience, allowing you to master the analytical tools and strategic perspective that come from rigorous MBA study. And through TCU's stand-and-deliver experiences, you'll be challenged to look at opportunities in new ways, making you a more valuable asset within your existing field or a related one.

**HOW THE PROGRAM WORKS ::**

↳ **Individualize your degree plan.**

You'll take a 36-hour subset of the courses from the Full-time MBA Program, selected in consultation with an advisor to build on your academic background and meet your career goals.

↳ **Tailor your MBA to your goals.**

Choose finance, supply and value chain management, marketing, or customizable concentrations. Or you can focus on industries such as energy, health care, real estate, entrepreneurship or consulting.

**SHANNON KINGMAN  
(MBA '11)**

*Strategist at  
Texas Health  
Resources*

TCU helped Shannon put her consulting experience to work in a strategy position with a top health care organization.

“ I loved that you can focus and go deeper into the topics that interest you. In terms of time away from the workplace and lost salary, it's a real benefit to get in and get out. ”
