Our educational programs offer the latest research and tools to help professionals — and entire organizations — think differently, embrace and manage growth, and advance in today’s most competitive industries.

LEADERSHIP PROGRAMS
The role of the leader has never been more important. In an age of complexity and uncertainty, leaders at all levels can absolutely make a tremendous impact for their team, for their organization, and for their community. The programs in this category range from helping emerging leaders to advanced leaders navigate the complexities of leadership and managing teams.

COMMUNICATION PROGRAMS
Communication is so important at every level of leadership, that we have built a series of Executive Communication programs to provide deeper insights and additional strategies, tools and approaches to a wide variety of leadership communication challenges and opportunities.

FINANCIAL ACUMEN & DATA ANALYSIS PROGRAMS
In today’s fast-paced and rapidly changing business world, every leader — and really, every employee — is responsible for managing the bottom line and driving success. To do that well, you have to clearly understand financial information, how it’s used for organization decision making, and how it can enable your work and results.

CUSTOM PROGRAMS FOR ORGANIZATIONS
Facing a tough challenge? We’ll collaborate with you to create a custom program that delivers results. We’ll work with your organization to build a program of any size from scratch or utilize our current program capabilities to tailor these solutions to meet your needs.

Your future in business starts here
"What surprised me the most about this program is the involvement of the professors with the students. I enjoyed knowing that every professor really cared about my success in this program."

KARLA TOUTLIAN
Emerging Leader Participant
The role of the leader has never been more important. In an age of complexity and uncertainty, leaders at all levels can absolutely make a tremendous impact for their team, for their organization, and for their community. Accepting and navigating the challenges of leadership takes courage, creativity and a new range of capabilities focused at succeeding in a challenging and unpredictable landscape.

Communications Programs

IN-PERSON
EXECUTIVE PRESENCE

2 in-person days
March 21-22, 2024
8:30 AM – 4:30 PM
Cost: $1,895

Executive presence is the ability to inspire confidence in others, create powerful connections and convey a compelling perspective. Executive presence and the ability to convey a compelling vision are essential skills for today’s leaders. In this two-day offering, participants will discover approaches for deepening their self-awareness, improving their ability to project authenticity and stronger “leadership presence”, and being more purposeful in how they show up to better engage stakeholders, align teams around a new direction, and lead even more effectively in their organization.

WHAT’S DIFFERENT
Day two of this in-person program will dedicate time to enhance a leader’s on-camera and virtual presence. In a world filled with a 24/7 news cycle, viral videos, and social media superstars, organizations need articulate, camera-savvy professionals who can think on their feet and clearly represent their company’s brand and vision to today’s audience. Engage with different on-camera scenarios such as a news interview, social media video post, marketing campaign video, or Zoom presentation, where executives can benefit from knowing the tricks of the trade that give presenters the edge needed to exude executive presence while on camera. The camera presence segment of the course will help equip leaders with the skills needed to handle themselves on camera in the public and private eye and strategically anticipate the small details that make a big difference.

WHAT YOU WILL LEARN

+ What executive presence means today
+ Authenticity and impact
+ Presence, confidence and mental preparation for executives
+ On-camera communication, messaging and presence skills
+ The nature of the news media and social campaigns
+ What makes a successful on-camera pitch

WHAT’S DIFFERENT

WHAT YOU WILL LEARN

+ Authenticity
+ Storytelling and Idea “Sell-In”
+ Influence & Persuasion
+ Presentation Approaches & Structure
+ Communication Style
+ Clarity & Focus for Message Development
+ Leadership Presence

WHAT’S DIFFERENT

WHAT YOU WILL LEARN

+ Practical storytelling tools and approaches that will help you develop
+ A clear picture of your audience and their motivational factors
+ A clear and powerful storyline to align your audience with your ideas
+ Your strengths and areas of improvement as a persuasive communicator
+ The ability to leverage the environment to reinforce your message
+ How to convey your message successfully in a virtual or online environment

HOW YOU WILL BENEFIT

+ Understand the science of storytelling and how it increases the emotional connection with your audience
+ Lessen your dependency on the presentation medium and increase your connection with the audience
+ Increase your understanding of your audience and how the environment plays into a presentation
+ Workshop your idea with a cross functional team and receive real-time feedback on your story and delivery
+ Take the reins on your professional development and craft stories that stick

In this two-day offering, participants will gain insights and concrete strategies for accomplishing personal and organizational goals by effectively managing differences and resolving conflicts. Executives will be given the tools needed to expand their influence acumen and strengthen their impact in interactions by securing buy-in from others. This workshop is highly interactive and provides opportunities for personal reflection, hands-on practice, and concrete takeaways for individual improvement and action. Participants will unravel negotiations and personal influence challenges while developing action plans for their resolution.

2 in-person days
April 30 – May 1, 2024
8:30 AM – 4:30 PM
Cost: $1,895

The volume and importance of business data and analytics are growing at an exponential rate. This program will help you better understand how to leverage data analytics to make decisions and enable business success. Additionally, you will gain a basic understanding of three popularly applied approaches to data analysis.

6 virtual sessions
Every Tuesday
March 19 & 26, 2024
April 2, 9, 16 & 23, 2024
11:00 AM – 1:00 PM
Cost: $1,695

WHO SHOULD ATTEND
Business leaders, managers, and functional area knowledge workers at all levels who want to take advantage of the real opportunity to better utilize data analytics in order to develop knowledge and insights that drive improved decision making.

WHAT YOU WILL LEARN
• Real-life leadership approaches and practical tools that you can implement immediately.
• How to examine the strategic and operational opportunities for analytics from an organizational and tactical perspective.
• How to use data analytics in the context of specific functional processes and applications, such as sales, marketing, HR, finance/accounting, supply chain, and operations.
• How to identify and clearly present results, relationships, trends, and other insights using key statistical metrics and tools such as regression analysis, decision trees, and cluster analysis, through hands-on exercises.

TOPICS
• Organizational & Strategic Opportunities for Business Analytics
• Business & Functional Application for Data Analysis & Mining
• Descriptive Statistics
• Data Visualization

NEELEY.TCU.EDU/FINANCE_NFP
In today’s fast-paced and rapidly changing business world, every leader – and really, every employee – is responsible for managing the bottom line and driving success. To do that well, you have to clearly understand how to manage costs and identify other factors that significantly impact profitability. Additionally, you must understand, evaluate, and often define successful financial performance that drives overall desired results.

WHO SHOULD ATTEND
Finance for Non-Financial Professionals I is not a prerequisite to attend this course, however, the curriculum in this program builds on the topics learned in that course.

Experienced managers in non-financial roles who want to learn how to:
• Identify key changes in operations that significantly contribute to improving the profitability of the organization
• Present recommendations for improved profitability in a way upper management will understand and accept

WHAT YOU WILL LEARN
Participants will take away a better understanding of key concepts and terms and gain practical insights into how financial information is used for decision making. Participants will leave the course with the ability to:
• Identify how different types of costs impact financial performance
• Appropriately manage costs to improve profitability
• Project the profitability of business decisions
• Prepare a department or company-wide budget
• Implement appropriate ways to measure financial performance
• Evaluate performance of various segments of the business

TOPICS
• Cost behavior and factors that influence costs
• Cost-Volume-Profit Analysis
• Cost Allocation
• Projected profitability and analysis of operating decisions
• Evaluating Return on Investment (ROI)
• Cash Flow Analysis
• Budgeting
• Segment Performance Evaluations
• Structuring Incentives for Improved Performance

Custom Programs For Organizations

The world as we know it is rapidly evolving. To keep up, organizations need to learn and grow with agility. Step up to the challenge by enrolling your company or department in programs designed to help you identify barriers, scale successfully, and innovate from within.

No one knows your business like you. We collaborate with you to develop a one-of-a-kind curriculum that reflects your goals and values. At the end, you’ll have an entirely unique program designed to engage, inspire, and—most importantly—drive results.

Discovery
We take a deep dive into your objectives and greatest challenges.

Design
Our innovative design team tailors programs and services to reflect your goals.

Delivery
We prepare an immersive experience to help your team learn and practice new skills.

Program Capabilities
We partner with organizations that seek the expertise of our highly acclaimed faculty to help manage change and foster leadership potential. These topics below are just some of the capabilities that can be used to create workshops or programs for your organization.

- Leadership Development
- Financial Acumen & Data Analysis
- Business Strategies
- Advanced Data Analytics
- Supply Chain Innovation
- Growing Profitable Customer Relationships
- Design Thinking
- Executive Presence
- Entrepreneurship
- Purpose-Driven Business
- Employee Engagement
- Creativity & Innovation
- Building Effective Teams
- Leading Change Initiatives
Tailored Programs

Our Individual Open Enrollment courses have empowered thousands of business professionals to become leaders. Your entire company is invited to enroll in those transformative courses, too, with a curriculum fitted to your schedule, preferences, and objectives. Tailored programs are available on demand with rapid deployment. You can select the classroom: our campus or yours.

"MINI-MBA" CERTIFICATE FOR YOUR ORGANIZATION

A custom "mini-MBA" certificate program is a robust, comprehensive and immersive experience for your company’s leaders. Uniquely designed for you, it delivers a powerful combination of leading-edge strategies and new business essentials crafted for success in today’s dynamic business environment. At TCU Neeley Executive Education, we’ll work with you to design a custom program to provide skills, tools and strategies for leaders challenged with leading their teams and organizations in a world of continuous transformation.

PROCESS IMPROVEMENT

All work happens in processes. But what is the definition of a process? And what are the general goals of process improvement for better management of work and results? In this workshop, participants will navigate process models, what makes work valuable, critical-to-quality characteristics, and distinguishing process efficiency, effectiveness, and value.

UNDERSTANDING FINANCE TO IMPACT YOUR ORGANIZATION

This program is focused on understanding financial information and how it is used for decision-making, within your specific organization, utilizing actual financial statements from the organization. This training is intended for managers and individual contributors in nonfinancial roles who want to better understand key financial concepts and information and leverage them for decision-making in their roles.
